LOW-PROFILE DRAIN

Designed for use with trucks and recreational vehicles, Alemite's Low-Profile Truck Drain collects fluid without the need for a lift or jack. This simple-to-use drain quickly and easily rolls under the vehicle to catch fluids such as engine coolant, transmission coolant, transmission fluid and engine oil.

Low-Profile Truck Drain (8597)

FEATURES:

- 20 gallon (75 liter) capacity
- Durable, welded construction
- Low-profile design fits underneath vehicles
- Internal baffles and 2 inch lip reduce splashing
- Removable metal screen keeps out parts and debris
- Three-wheel design for easy handling
- Solid wheels are sized for maneuverability on uneven shop floors
- Extended T-handle for convenient movement
- Two ¾" NPT drain ports; one for evacuation by gravity and one for evacuation by external pump

8597

DRAINS

Alemite Drains are designed to safely capture used product and transfer the fluids to storage containers.

Pressurized Portable Drain (8587-1*)

FEATURES:

- 24 gallon wheel mounted tank
- 23" swivel mounted bowl
- Built in evacuation hose
- Gauge indicates when tank is full
- High quality steel construction
- Recommended accessory – ¼" Air Regulator with Gauge (7604-B)

8587-1

8592

Pump-Assist Portable Drain (8592)

FEATURES:

- 26 gallon high-strength polyethylene reservoir
- 18" diameter offset bowl with removable filter screen
- Integrated recesses for tool and used filter storage
- Mounted on two 4" swivel casters and two 10" fixed-axle wheels
- Built-in fluid level sight gauge
- ¾" male camlock connector extends from top for connection to external pump system

Portable Drain (8586)

FEATURES:

- Mounts directly to a 16 gallon drum (338550, not included)
- Cover mounted drain with telescoping tube, and built in ¾" cam lock adapter
- Suction tube for evacuation, including screen to prevent large articles from contaminating pump
- Float gauge indicates when drum is full
- Sturdy steel dolly

8586

Portable Drain with Drum (8586-A)

FEATURES:

- Mounts directly to a 16 gallon drum (included)
- Cover mounted drain with telescoping tube, and built in ¾" cam lock adapter
- Suction tube for evacuation, including screen to prevent large articles from contaminating pump
- Float gauge indicates when drum is full
- Sturdy steel dolly

8586-A

EXTRACTORS

Alemite's Portable Oil Extractor provides a safe, economical way to empty fluids from engine crankcases using air pressure.

Portable Oil Extractor (8588)

FEATURES:

- Large 24 gallon wheel mounted tank reduces trips to waste container
- Pressure relief valve to prevent over pressurization
- 6 suction wands with convenient storage caddy
- Recommended accessory – ¼" Air Regulator with Gauge (7604-B)

8588

DISPENSERS

Alemite's Pressurized Oil Dispensers safely and conveniently deliver oil to engine crankcases, transmissions and differentials.

Pressurized Oil Dispenser

Pressurized Oil Dispenser (8589*)

Pressurized Oil Dispenser with Meter (8589-A)

FEATURES:

- 17 gallon tank
- 79" clear dispensing hose
- Valve, air pressure gauge, pressure relief valve and fluid level gauge
- Recommended accessory – ¼" Air Regulator with Gauge (7604-B)
- Meter (3671-B) included for Product 8589-A Only.

8589-A

DIAPHRAGM PUMPS

Evacuation Kits

Alemite offers three new diaphragm pump systems to evacuate fluids from portable used fluid drains and collection equipment and transfer it to remote storage containers. The kits are ideal for use in automotive service and fleet maintenance shops where used fluids such as motor oil, transmission fluid and coolant are commonly changed. Each system features an air-operated, double-diaphragm pump, all recommended air supply, fluid extraction and fluid discharge fittings, components and accessories. An optional wall-mount bracket also is available.

FEATURES:

- Corrosion-resistant aluminum
- Kit includes fittings, valves, hoses and other components required for compressed air connection, fluid collection and discharge
- Cam-lock-style connection adapts to virtually any type of drain

8595-A

Product #	Description	Pump	Discharge Hose	Suction Hose Connection	Air Inlet
8595-A	Evacuation Kit (1") with non-UL-listed pump	8323	3/4" NPTF(m)	3/4" Cam-lock (f)	3/8" NPTF
8595-B	Evacuation Kit (1") with UL-listed pump	8325	3/4" NPTF(m)	3/4" Cam-lock (f)	3/8" NPTF
8595-C	Evacuation Kit (1/2") with non-UL-listed pump	8322-A	3/4" NPTF(m)	3/4" Cam-lock (f)	1/4" NPTF

Optional Components

Though the kits include all items necessary for a typical installation, components may be required to adapt the systems to specific applications and are available from Alemite by separate purchase.

Product #	Description
343261	Cam-lock Connector with 3/4" NPTF(f) Thread
343262	Cam-lock Connector with 3/4" NPTF(m) Thread
343274	3/4" Check Valve
338564 *	3/4" Ball Valve
343283	Mounting Bracket (Pump)

ACCESSORIES

Drums

Waste Oil Drum (338550)

FEATURES:

- 16 gallon capacity
- 2" NPTF opening on top and side of container
- For use with Alemite Portable Drain (8586)

Tank Overfill Alarms

Tank Sentry (340078)

The Alemite Tank Sentry is a valve used to prevent used oil spills due to overfilling storage tanks. Operating air to the evacuation pump passes through the valve. When the storage tank is full, a float on the valve rises and air supply to the pump is stopped.

Wands and Hoses

Suction Wand Kit (338557)

FEATURES:

- (4) 15" flexible wands ($\frac{3}{16}$ ", $\frac{1}{4}$ ", $\frac{3}{8}$ ", $\frac{1}{2}$ ")
- Use with Alemite Portable Oil Extractor (8588)

Evacuation Hose Kits (338554 *)

FEATURES:

- $\frac{3}{4}$ " x 6 ft hose
- Ball valve cam lock
- Use with Alemite Portable Drains (8586, 8586-A)

Strainers

$\frac{3}{4}$ " NPT Strainer (338685)

1" NPT Strainer (339683)

Alemite Strainers may be used with any Alemite drain, to help prevent contamination of evacuation pumps.

4-Way Evacuation Valves

Alemite 4-Way Evacuation Valves simplify extraction and discharge of waste oil fluid, hydraulic, gear and engine oil and automatic transmission fluid.

1" Evacuation Valve (340289-1 *)

FEATURES:

- 5.5" x 5.5" x 4.6"
- 1" NPT connection
- 200 psi operating pressure
- Weight, 6.6 Lb.

1-1/2" Evacuation Valve (340289-2 *)

FEATURES:

- 5.5" x 5.5" x 4.6"
- 1-1/2" NPT connection
- 200 psi operating pressure
- Weight, 6.6 lb.

2" Evacuation Valve (340289-3)

FEATURES:

- 6" x 6" x 4.6"
- 2" NPT connection
- 200 psi operating pressure
- Weight, 7.8 lb.
